Summary: In response to the recently proposed Markets in Crypto Assets (MiCA) regulation, INATBA is convening a task force to gather industry-wide feedback on the legislation and compile community feedback for presentation to key stakeholders. MiCA will undoubtedly change the blockchain ecosystem; together, it will be possible to shape the MiCA regulations for positive change and allow these innovative technologies to prosper.

Objective: The MiCA task force will:
- provide a platform for voices in the blockchain ecosystem to be heard
- evaluate and gather feedback on the proposed regulations
- present community feedback to EU member states, the European Commission, and European Parliament
- leverage INATBA’s platform to ensure feedback reaches decision makers

Make a difference, join the task force:
- INATBA is looking for blockchain & crypto trade associations, private sector companies, and civil society organizations to join the discussion
